From Behind the Desk...

Welcome to the March issue of the One Tree Hill Grapevine for 2021!

Our cover page is Gillian Emmerson with Lil Mr Mulligan who won Champion Junior Mini Horse in SA. Gillian and her family run Knotty Ash Miniature Horse and Miniature Donkey Stud in One Tree Hill. The vets have advice about fleas, and Natasha Steen has some good ideas regarding smart watches.

In this issue you can also meet our youngest reader, and celebrate with our oldest reader too, plus touch base with some ex OTHPS students who completed year 12 in 2020. Two very informative community presentations — one about bees and one about bushfires — have been rescheduled to March after being impacted by Covid last year. Keep yourself informed by heading along to check them out.

As always, please email grapevine@onetreehill.org.au if you have anything you would like to share with the community.

One Tree Hill Progress Association ~ President's Report

Dear Residents,

At the time of writing we are still waiting on a formal response from the Minister for Environment and Water regarding our concerns with the lack of town water during power outages. It was great to see so many of the City of Playford Councillors from other Wards attend our 6Feb21 Country Market (in trying weather conditions!). We really appreciate the interest shown by the councillors in the One Tree Hill community and especially their support for our concerns for backup power for our water pumping station.

No progress on the review of the township flowerbeds and the impact on parking. After 3 months, the City of Playford have directed our request to the Department of Infrastructure and Transport and we are awaiting contact from them. Rest assured that the traffic and safety aspects of the flowerbeds are being considered and weighed against the amount of available parking in the township. However, it is exceedingly difficult to find accessible parking during busy periods and this often unduly affects local businesses through the loss of their customer parking spaces.

We have been advised that there are no immediate sources of funding for the McGilp Recreation Park upgrade proposals. The City of Playford will hopefully look favourably on adding the project to their Strategic Plan for future funding allocation, but other sources of funding from either the State or Federal Government will likely be required. The One Tree Hill Sports Association is still the lead-agency for this project, and we will help them to foster community support to lobby the various levels of Government to secure funding.

The Progress Association will be holding a modified ANZAC Day commemorative service on 25Apr21. The intention is to hold a normal commemorative service under a Covid-19 Management Plan, with no food, drinks or displays and the only access inside the Hall will be the toilets. More information in next month's Grapevine.

Our Bibaringa, Uleybury and Yattalunga residents have been moved from the King State Government electorate to the Schubert electorate. The Progress Association will now be interacting with two State parliament Members when considering local issues that have government input.

Our next meeting will be held at 7:30pm on Thursday 11Mar21; it would be lovely to see some new faces there! Our AGM is planned for 13May21 - we really need more people to get involved in our activities to support the local community.

Kind Regards,

Steve Huckstepp

President, One Tree Hill Progress Association

One Tree Hill CFS ~ February Report

Milder weather and some heavy rain resulted in this month being much quieter for the crew at One Tree Hill CFS. However, the extremely hot and windy conditions on Sunday the 24th meant the reporting month started with the team on stand-by. Fortunately, things were relatively quiet out our way but not so down south where several allegedly deliberately lit fires culminated in the Cherry Gardens fire. A crew from OTH was dispatched on strike team on the Sunday night and worked through the night to contain the blaze. A second crew backed them up the following day and were assisted late in the day by heavy rain which in turn made the fireground too slippery for the appliances.

Many appliances from surrounding brigades were dispatched a couple of days later to a grass fire in the Barossa Goldfields area on Allendale Road. Although the fire was in a potentially dangerous area, it had been called in from multiple surrounding properties and the quick response and assistance of the bombers meant that the fire was quickly brought under control and the burn was restricted to a small area.

The Brigade has also been called to 4 Vehicle accidents during the month, one involving a stobie pole and another involving a tree. Just a reminder that after we get rain following long spells of warm to hot weather the roads can become extremely slippery so take care. Another hazard we face in the wet and windy conditions is falling trees and branches and a local resident was reportedly very lucky when a tree fell on Cornishmans Hill Road narrowly missing their car. Although we were dispatched to this incident the road had been cleared by locals before we arrived, this callout was not in vain however as the crew were diverted to a second tree down partially blocking Yorketown Road.

Not quite there...

Although we have had some cooler weather recently, the hot spell in the middle of February reminds us that we are not quite through fire season yet and that we must remain vigilant. The Fire Danger season officially ends on the 30th of April in the Mount Lofty Ranges area and as of the date of writing, that is still nearly ten weeks away. If you have any questions about what is permitted during Fire Danger season, please refer to the CFS web-site.

Article By: Garry Walsh, One Tree Hill CFS Firefighter

Playford Council ~ Local Councillor's Report

Dear Fellow Ratepayers and Residents,

Who wants to see the McGilp Recreation Park Redevelopment? It is needed however it is not in Council's medium-term priorities for funding.

The positive news is that the City of Playford have concept plans for the redevelopment as a shovel ready design which includes the creation of two soccer pitches – one senior and one junior, upgrade of the carpark, change rooms, improvements to the stormwater and wastewater management systems. It also includes an indicative area for a BMX track in the design.

The cost of the upgrade is approximately \$3M and to progress with this redevelopment in the short term, Council will need to receive significant funding from the State or Federal Government. While our local MP has been a fantastic supporter for the redevelopment, I'd like to see funding on the table to see the redevelopment delivered in the short term.

Why would I be seeking the assistance of the State Government? The Redevelopment will significantly benefit the One Tree Hill Primary School who is using the oval facilities without shared use contributions from the Department of Education. The use of the McGilp Recreation Reserve facilities and lack of funding from the Department of Education has been continuing since the 1970's. The upgraded design of the carpark will improve traffic flow for the school especially around school drop-off and pick-up times.

I will be making a Petition available to raise support and obtain the commitment of the State Government to allocate at least half of the funds for the delivery of the entire upgrade of McGilp Recreation Park. I'd appreciate your support in signing the Petition and hopefully together we can see the upgrade delivered.

If you wish to discuss the plans please give me a call or alternatively come and visit me at the local community engagement sessions:

- **One Tree Hill Markets on Saturday the 6th of March between 9am & 11:30am**
- **McGilp Recreation Park on Wednesday the 10th of March between 6pm & 7pm**
- **One Tree Hill General Store on Sunday the 21st of March between 10am & 1pm**

The One Tree Hill Cemetery has been raised by a local resident and I have confirmed that there are no new leases funding to be available for burial plots and there is only one lease left available for the cremation niche / memorial wall. I've asked if the City of Playford is able to undertake a review of the case for the construction of a new niche / memorial wall at the OTH cemetery. It is anticipated that this may require funding for the construction of a new wall through the budget process. I'll keep you updated as this progresses.

Best wishes and regards,

Smart Tips About Benefits of “Micro Recovery”

A Mental Health & Wellbeing Article by One Tree Hill Local Natasha Steen

Do you have a smart watch or a fitness band!? I am amazed how many people do... Apparently one of the most gifted items over recent years!

These devices offer many beautiful features. Features that take a focus on keeping us active or enable us to receive reminders or even wave our wrist over the EFTPOS machine! The one feature I question is the one that reminds you to BREATHE or RELAX!!!!

We live in a worrying world where people need to be reminded to take a moment to relax, notice the small things and take a few deep breaths.

I challenge you to ask yourself..... “How do I relax?” – “What do I regularly do that makes me truly feel relaxed”? Start to notice these things more and truly nurture them. For you it could be reading, listening to music, afternoon naps, fishing, staring out the window etc etc!

The next step is to capitalise on smaller, shorter opportunities during the day. This will help if you think you are too busy! Recent research is telling us that to refresh and re-energise our body and mind we need not invest a lot of time. The concept scientists are speaking about is known as "Micro Recovery". Micro Recovery is any brief activity that helps to break up the monotony of physically or mentally draining tasks.

You may already take Micro Recovery breaks in your busy day but not recognise and truly appreciate them. However, if you are not taking them you are missing out on the opportunity to concentrate better, feel less fatigued anxious and stressed. Here are a few simple opportunities to take a breath and take a Micro Recovery..... you can find plenty of ideas of your own...

- Singing – very therapeutic for some!
- Stretching
- Truly drink your cup of tea – take it all in – do nothing else
- Watching a short video clip that makes you laugh – yes laughter truly is the best medicine
- Active pausing to take deep full breaths
- Drawing in a smell that passes you that you enjoy
- Glancing at a photograph that means a lot to you
- Shutting your eyes for just 30 seconds!
- Take note of the little bird fluttering in the tree

When these opportunities are taken - take a deep breath, enjoy and even say something to yourself like "nice... Thank you". Try to actively notice these opportunities and applaud the benefits they offer your body and mind. This is all about being kind to yourself. Just 1-5 minutes of these Micro Recovery activities 2-3 times per day can see big improvements to your overall health.

Nothing will take the shine off the groovy functions offered by your smart watches.... but please know there are some wonderful simple opportunities out there to seize the moment and breathe without needing anything robotic!

Article by Natasha Steen

Natasha is a local One Tree Hill resident, with her husband Craig, and 2 daughters - plus Dusty the Dog and our new four legged variety – Marlo the Puppy! Natasha - amongst other things - has her own Counselling and Coaching business. She has over 24 years of experience in this work and takes pride in supporting people to nurture their health by adopting simple things that really work to improve day to day living.

OTH Vets Say ~ *Fight Against Fleas!*

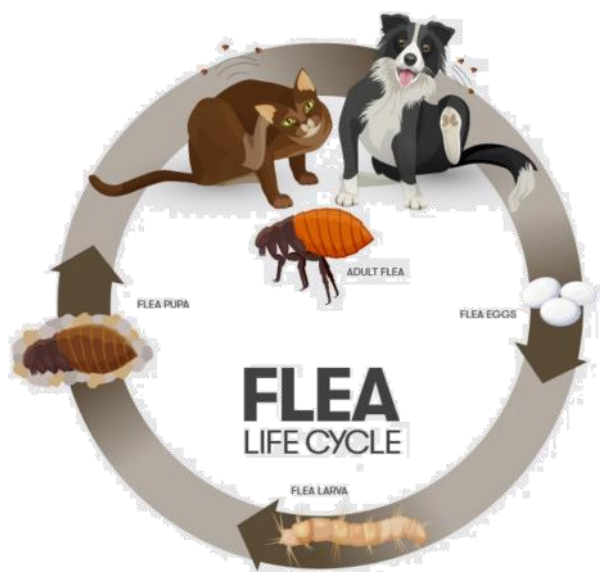

We are right in the midst of flea season, fleas love the warm weather. It is thought that fleas are only around in the summer, but that is not the case they are around all year, just more prevalent in the warmer months. They can become a burden to our cats and dogs and cause lots of health issues for them, as well as biting us humans.

An adult female flea can lay around 40 eggs per day on your pet. The eggs will then fall off in the environment. The eggs can take 2 days to 2 weeks to hatch into larvae, depending on the temperature. The larvae then take 5-20 days to become pupae, which is protected in a cocoon. The cocoon can protect the pupae for weeks or sometimes even years. When a potential host is present the pupae will emerge from its cocoon and start feeding on that host, and then the cycle continues.

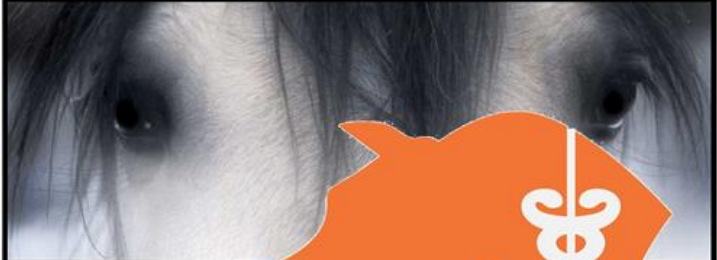

Fleas can be very bad news for your pets, not only do they bite and cause irritations to your pets skin, they can cause flea allergy dermatitis, hair loss and in more severe cases severe anaemia.

When it comes to fleas, prevention is always better than cure. There are lots of products that you can purchase to keep your pets and family flea free. It's best to avoid flea collars and flea powders as they only kill fleas for a short period of time, and generally do not kill the eggs. It is best to use good quality spot on treatments and chews. These products are best purchased at your local veterinary clinic to ensure you get the correct treatment that you require.

If you do find fleas on your pet, it is almost certain that you will have fleas in your house environment, and it is then necessary to treat your house and all the other pets. Washing blankets and bedding on a high temperature, using flea bombs and sprays in the house, being careful not to use products which could harm your pets and of course a good quality regular flea prevention, to keep them away.

For more information and help purchasing products contact your local veterinary clinic.

Grapevine Readership Thriving in Sampson Flat

While most 16 month olds are playing all day with their toys and enjoying preschool targeted TV shows, young Everly Ford from Sampson Flat, would rather spend her time reading her favourite “book”, the One Tree Hill Grapevine. For the last 3 months, Everly’s mum Lisa has been sending photo updates of her daughter fully engrossed in the latest edition. Everly’s other favourite things are animals and of course, other books. Imagine her surprise when she sees herself in this edition! Who knows, maybe we have a future editor in training?

Do you have a “small town story” or a quirky photo you’d like to see included? Send to grapevine@onetreehill.org.au!

OUR AGENTS ARE TRAINED TO SEPARATE THE LOOKERS FROM THE BUYERS

WHO DO YOU WANT INSIDE YOUR HOME?

A **'looker'** usually attends an open inspection for the purpose of interest or just a sticky beak and the agent hopes they are a buyer. A **'buyer'** is someone who has the desire and capacity to buy a property that suits their needs.

We know the difference between competing buyers and casual buyers (the lookers) which can make a significant difference to the selling experience; financially and mentally.

Knowledge of a buyer's emotional wants, physical needs and financial capabilities is a strong foundation to a stress free and successful result for sellers. Using this information, **our agents can ensure that the right people are inspecting your home.**

We have competing buyers on our database, ready to buy now, so you don't need to spend advertising money trying to find them. Want to know more? **Call our team on 0488 972 888 for a confidential, no obligation discussion.**

What's Flowering In My Garden?

There has been a very good day or so of rain with the rain gauge capturing 36mls during the rain event. The rain was not welcomed during the first market for the year, but the trees and shrubs have all been washed of built up dust and all are now refreshed. There's a few warm days forecast but we are coming to the end of Summer.

Callistemon Injune has been flowering and providing a splash of soft pink to cream flowers for some time now during Summer. With several plants in the garden, they have not all flowered at the same time, thus providing a staggered flowering season. This plant, which is a variety of *Callistemon sieberi* can be grown as a single stem small tree or as a multi stemmed rounded compact bush reaching up to 2m high. It has typical bottle brush leaves, perhaps 3-4mm wide and 20-25mm long. The soft grey green shade provided a perfect backdrop to the small almost delicate rosy pink bottle brush flowers that appear along thinnish grey stemmed branchlets. The colour of the flowers fade after a few days to a creamy off white shade. The insects, bees and New Holland Honeyeaters are all attracted to these lovely sprays of flowers.

This is a very hardy Callistemon that does not require any additional Summer watering but, if it does receive a drink during Summer, it will quickly produce a mass of flowers. The drooping nature of the flower spikes adds an interesting feature to this plant. It is sometimes found in good nurseries and through specialist native plant nurseries.

Callistemon Injure is such a lovely plant to have in any garden. I must plant a few more.

Just beautiful.

Article and photo submitted by Heather Fischer

NORTHERN FOOTHILLS LAND CARE GROUP EVENT #11

Bee Bio-secure

Scientists believe that if bees die out, we all will within 4 years. Fires, drought and disease have led to declining bee populations and there has never been more urgent time for us all to learn how our actions affect the welfare of our pollinators.

Whether you are considering backyard beekeeping for honey supply or just want to provide a safe garden refuge for both native and European honey bees to visit, then this evening is ideal for you.

We will learn how to support native bee colonies in our gardens and how to care for the health of your hive. Also we will get an appreciation for the potential pests and diseases that can affect farm production and our native biodiversity. No matter the property size, biosecurity impacts on us all. This is evident with the recent outbreaks of Fruit Fly in Adelaide and the impact this poses for our states Fruit Fly Free status.

Bi annual hive inspection

BEE BIOSECURE

What may-bee buzzing around your yard and how to support SA farmers

An information session for anyone wanting to understand:

- Benefits of bees and how to support them
- Beginners guide to bee keeping and biosecurity considerations
- Farm biosecurity practice for animal health and weed management

Guest Speakers

Bianca Amato – bee expert and the benefits to farmers
Matt Thomas – local landowner on backyard bee keeping
Shannon Robertson –PIRSA, general farm biosecurity,

Fred Riley Turns 102!

It's hard to believe it's already two years since local hero Fred Riley made statewide news when he celebrated his 100th birthday. Since that time, he's been enjoying pretty good health although as he says, "my knees are shot". Since coming home from World War Two 75 years ago, Fred kept quiet about his flying exploits as a Spitfire Pilot. He's lived in One Tree Hill for most of that time, building a thriving family life based on farming and horses.

For a long while, Fred has been a keen supporter of the One Tree Hill Seniors' bowling group, who enjoyed wishing him well on Tuesday 16th with a yummy cake topped with a candle for every decade. Our local MP, Paula Leuthen made sure Hilltop flowers delivered a huge sunflower bouquet and Hilltop added their own tribute to Fred's long life. Thanks Paula, thanks Ross.

Well done, Fred! We thoroughly enjoy your company at bowls!

One Tree Hill Seniors Club (always looking for new players!)

One Tree Hill Road Upgrade In Progress Until June

Works on the One Tree Hill Road Upgrade (between Hannaford Hump and Shillabeer Roads) have commenced from 1 February and are expected to be completed in June.

This \$2.2m project is being jointly undertaken by Playford and TTG Councils as part of the Roads to Recovery Program. Traffic Management will be in place during the works, so plan for delays, and take care while travelling through the area.

OTHPS 2015 Year 7s are the Year 12 Class of 2020

After graduating from One Tree Hill Primary School in 2015, our Year 7 cohort very much went our separate ways as we attended various high schools including Craigmore High School, Birdwood and Trinity College to name a few. Upon graduating Year 12 in 2020, we reached out to one another to organise a One Tree Hill reunion of sorts to share our experiences and learn each others plans for the future.

We all agreed that it was best to catch up in 2021 because of the strife that 2020 gave us in our graduating year of school. It was great to hear people heading to university in the coming years, starting apprenticeships and working in a wide variety of industries. Although many of us were nervous at first with the prospect of reuniting with friends from 6 years ago, it very quickly felt like we were back at primary school again as we reminisced over old photos, videos and stories, situated at the park just across from the school. As much as everyone had their own journey through high school, we found that while we were together not much had changed and we were still just as able to enjoy each other's company. After a very successful reunion, it's promising that we'll catch up more often as we all head out into the big wide world.
