

Vol. 18, No: 8.

ONE TREE HILL

September 1995

GRAPEVINE

This monthly newspaper is published by the One Tree Hill Progress Association. Its purpose is to share local news, views, and events. We want to encourage local people and groups to share what they are doing and to pass on items of interest to one another. We are happy to include some advertising from local businesses. Maximum size for an advertisement is one quarter of a page. Deadline for the next issue is Friday, September 22nd at 6pm. Items are not able to be accepted after the deadline time. Details may be left at the One Tree Hill General Store, or phoned to Jill McLatchie on 280 7214. It would be appreciated if items for publication were handed in well ahead of the deadline date. A minimum of 50 cents donation would be very much appreciated.

ONE TREE HILL COUNTRY MARKET - SATURDAY, SEPTEMBER 2nd, 9am to 2pm

Come early or come late. There are plenty of goodies, produce and refreshments.

Have you tried those delicious home made chocolates and Italian biscuits?

View the garden ornaments and gnomes, the fretwork and paintings.

Meet your local councillor, Matthew Hayden.

Phone June on 287 3306 to book your site.

ONE TREE HILL HARDWARE

has kindly sponsored 50 copies of this edition.

Terry and Joyce Hennings

have kindly sponsored 60 copies of this edition.

Local businesses support the community through the Progress Association

Please support them.

FESTIVAL OF FLOWERS

On the weekend of the 9th and 10th September, 1995, a Festival of Flowers will be held at the One Tree Hill Uniting Church, Blacktop Road. The Church will be open for viewing on Saturday, 9th Sept from 10.00am to 4.00pm and on Sunday, 10th Sept from 2.00pm to 5.00pm. Everyone is welcome. Devonshire tea will be available in the Church hall at these times. On the Sunday evening at 7.00pm the Rev. John Blanksby will be leading the closing celebration of this joyous weekend with selected hymns nominated by the floral artists. The proceeds from this weekend visual display of God's beautiful creation are to be equally divided between the Schools Ministry and in sponsoring Geoff Bond's Canadian ride "Bike for Bibles".

HEARD ON THE GRAPEVINE

Congratulations to Ivor McLatchie who has become a Grandfather for the first time. Son Craig and daughter-in-law Jodie have produced a beautiful boy, Daniel Craig, on August 16th. Does anyone want to have some lovely angora fleece? It's yours for the shearing. Just contact John, 284 1306. He has six angora goats that desperately need a trim. Alternatively do you know anyone who shears goats? Please let John know. There are going to be doctors in One Tree Hill soon. Dr Joy Bryant and Dr Anthony Ridings will very soon be practising in premises at the One Tree Hill Shopping complex. Please keep a look-out for starting times on the window of the shop at present undergoing alterations. If you're wanting a bus to serve One Tree Hill don't hold your breath. Apparently our area has been excluded from the Outer Northern area for tendering purposes to private contractors. A response from the Minister of Transport about this has been sought by the Northern Adelaide Regional Transport Action Group. Congratulations to young Simon Squire who won a cup at the S.A. Canary and Pigeon Society show recently for Exhibitor of the Year for all the pigeons entered. He was also the Sunday Show Champion for Birmingham Rollers, Any Other Variety Fancy, and King. He also won a glass bowl for his King. Now it's on to the Gawler Show and the Royal so good luck Simon! Congratulations are also due to Ross and Freda Woolford who won Champion Display at Westlakes Shopping Centre at the largest Cymbidium Orchid Show in the world for the second year in succession.

MATHEMATICS TUTOR

Available for tutoring years 8-12 in your home. I have an Economics/Accounting Degree (Adel.Uni) where I gained straight A's & 90% in University Maths. Also straight A's in matric maths. (Results available for verification) Phone 280 7531. Hans.

MARKET REPORT

It was a fine sunny day for the market and there was a steady crowd of people. The Sausage Sizzlers reported their best day ever. There is something very tempting about the aroma of sausages and onions cooking. A new stall was the Rotary Bring-Browse-Buy stall - a great way to rid yourself of those unwanted bits and pieces and help a worthwhile cause at the same time. Come along on the first Saturday of the month, meet old friends and make some new ones. Matthew Hayden our energetic Councillor was also in attendance again. It's a pity our buskers seem to have disappeared. Come along you entertainers and give us a show!

MORNING TEA GROUP

A big "thank you" to John Martins for bringing us Estee Lauder. Our ladies enjoyed being pampered. This month on September 5th we are looking forward to having Dawn and Linda, two firefighters from the C.F.S. talk to us and show us and the children around the C.F.S. shed. In October and November, the Morning Tea Group will meet in the 2nd week, that is October 10th and November 14th. We meet 10.00am to 11.30am. Free creche available. Ring Karen 280 7011, or Sally 280 7683 for more information.

TRINITY COLLEGE

Blakeview Campus is having a Spring Fair on Saturday 21st October 1995. Stalls and amusements will open at 10.00am with a great selection of craft, cakes, plants, devonshire teas, strawberries and cream and a lot more. The School Band and choir will perform and there will be displays of Line Dancing, Marching Girls, Go Wild activities and other attractions through to 4.00pm. Please come along and support our school in an effort to raise money to build a much needed playground. The school is situated on Park Lake Boulevard, Blakeview. Access from Uley and Craigmore Roads.

THE BLACKSMITH'S INN
OPEN 7 DAYS

Our LOUNGE BAR features an extensive menu which supplemented by our "theme" nights.

Monday - Roast night \$5.50

Tuesday - Schnitzel night from \$6.50

Wednesday - Fish night \$7.00

Thursday - Steak night \$7.00

Friday - Chicken night \$6.00

All meals are served with either chips and salad or the appropriate sauces or toppings.

Our RESTAURANT is open Wednesday to Sunday and has an extensive menu.

Main courses start at \$9.50 and include fish, steak, chicken and game dishes.

Sunday lunch carvery (All you can eat) \$12.50 / person

Ideal as a venue for functions - wedding receptions
our speciality.

BLACKTOP ROAD, ONE TREE HILL VILLAGE

ONE TREE HILL PROGRESS ASSOCIATION

Report from the meeting of August 17, 1995. Pat Cole from the MPCC Community Development Team described the Community Cleanup Campaign being organised for the 15th & 16th September. The purpose of the campaign, which is part of both a National and world wide event, is to encourage members of the public to work together in collecting litter and rubbish lying around in their local neighbourhood. It was decided that Progress would support the campaign and is organising a cleanup of Blacktop Road. Members of the Community are invited to assist in this community event by collecting roadside litter and rubbish and depositing it in rubbish sacks. The cleanup will start from the Blacktop Rd/One Tree Hill Rd intersection (near Sampsons Flat) at 9.30 am. on Saturday 16th September. The event will be followed by a sausage sizzle. Please bring gardening/working gloves, hats, sun glasses, etc. Sacks will be provided. The meeting also discussed the condition of the Institute floor. Bill Carrick of MPCC reported that the levelling and "springing" problems were caused by unseasonal weather conditions and the movement of dwarf walls. Council will rectify the situation once the ground has stabilised. Council was also requested to consider the sanding and resealing of the Institute floor at its next budget session. The structural framework and external cladding of the store room and the opening to the main hall has been completed. The internal lining is on site and should be installed soon. Matthew Hayden reported that the McGilp archway sign has been constructed but the wet weather has delayed its painting and installation. The Trinity College Bush School development proposal has been rejected by Council. Road safety issues concerning the intersection of Blacktop and Precolumb Rds were discussed and will be investigated by MPCC. It was stated that the Dept of Transport is unlikely to construct a round-a-bout in the near future. The next meeting of the Progress Association will be held in the Institute Supper Room on 21st September at 8.00pm. All members of the community are invited. Supper will be provided. Development Proposals - One of the objects of the Progress Association is to "foster community spirit and promote the welfare of the One Tree Hill community". Proponents of development proposals that may effect and/or require the support of the One Tree Hill community are invited to approach the Association so that appropriate forms of community consultation can be arranged.

PUZZLE CORNER

Each of these sentences contains three clues to the names of flowers found in a cottage garden. Can you find all six flowers? 1. "Honey," Bill murmured, "you'll not wed riches, but you shall have cathedral chimes". 2. The grocer was feeling in the best of health, so he got up early to check the contents of his shop. (Answers elsewhere in the Grapevine)

GARDENING CORNER

Deciduous Ornamentals: Most ornamental trees are best planted when dormant. Containerised trees may be planted any time. Soil should be well drained. Adding gypsum and compost will be a big help. Good ornamental trees are:

Betula Alba (Silver Birch) to 10 metres. Adaptable to most soils. It has a white trunk with drooping branches. It is frost and draught resistant and fire retarding.

Fraxinus Excelsior Aurea (Golden Ash) to 6 metres. It has green leaves turning gold in autumn. Frost tolerant.

Ulmus Louis Van Houten (Golden Elm) to 10 metres. Rich golden leaves all summer. It's an ideal shade tree. If you want to make a "French Protest" this year avoid planting french lavender, larkspur, sweet william, laburnum, perennial cornflower, sweet alyssum, virginia stocks or shasta daisy as they all originate in France!!

EDITORIAL

It was very encouraging to be given \$30 recently at the Market by Joyce and Terry Hemmings to sponsor 60 copies of this month's Grapevine. Thank you very much Joyce and Terry for your very generous gesture. Thanks are also due to the One Tree Hill Hardware Store who sponsor 50 copies of this edition. We are very grateful for this additional revenue and to all our advertisers and tin donators because your support means we can keep going. Are we giving you what you want? Would you like to see articles on other subjects? Have you any ideas? Please let us know and feel free to contribute articles yourselves on any subject of possible interest to One Tree Hill residents. One group of people in One Tree Hill seems to miss out or areas of interest to them and that is the teenagers. Is there any young person out there who would be willing to write an article of interest to this age group? Please submit all articles for publication next month as early as possible to enable the standby editors, Pat Beck and the Parker family to get it all together with the minimum of last minute panic. Deadline is the FOURTH Friday of the month not the last Friday this time, as September has five Fridays. Also please understand that a deadline is a deadline. 6.00pm at the Deli is the closing time. Items CANNOT be accepted after this time because of the tight schedule in computer set up and printing. We are all volunteers and we do have other commitments. Please discuss your advertising needs for October with Pat Beck, 280 7484. Sometimes articles have to be held over for a month because of lack of space. If this has happened to yours please be assured we will do our best to get it in for next month. We do value articles and encourage contributions so please keep them coming in.

REVERSE CYCLE AIR CONDITIONING

THE ROTARY CLUB OF TORRENS VALLEY

(Meets Blacksmith's Inn, Wednesdays 7.00pm for 7.30pm) Two local students, Vanesse Towers, and Nathan Woon are being sponsored by the club after earning places for the Siemens Science Summer School in January 1996. These three-day hands on science schools for year 10 students are very much appreciated by those chosen. Previous students have spoken to the club about the stimulating and enjoyable programmes, which help to give a firm direction to promising careers in science.

Pakistan Womens Hospital: The collection of medical equipment and supplies has been amazing. The Club now has nearly a container load and we have been promised assistance from our Rotary District with transport costs. The supplies are being transported to International Transport Services where there is a big job to be done in sorting, listing and packing before the container is sent.

BRING, BROWSE, BUY: The success of this stall at the Community Market depends on all of us in our local community. PLEASE bring any items you can donate towards the Australian Rotary Health Research Fund, spend a few minutes browsing over the goodies and don't forget to buy at the very low prices.

Rotary contact; President Ivor McLatchie, ph. 280 7214.

MEET OUR COMMUNITY: Lea Stevens

Lea was born in Adelaide at the Queen Victoria Hospital and spent her childhood at Clovelly Park attending South Road Primary School and Marion High School. A highlight of her childhood was being extremely ill with nephritis at the age of ten! Lea went to the University of Adelaide and obtained a Bachelor of Science Degree. She was unsure what to do but she liked working with people so when a teaching job came up at Methodist Ladies College she began her teaching career. She was 22 when she married her husband Mike and they are still married! At first they lived at Prospect and then in

1976 they moved to One Tree Hill sharing a house with her sister Ann and her husband Terry and their young families. One Tree Hill was full of young families in those days and there were lots of activities such as a folk music group, women's discussion groups as well as playgroup and the school. Lea has had several jobs around teaching such as jobs with TAFE and as a Community Worker but she moved to Elizabeth West High School in 1980 and since then all her working life has centred around Elizabeth. Lea and the family did all the usual things that people tend to do when they move to One Tree Hill. They acquired lots of animals such as cows, goats, ducks, chooks, sheep and horses learning the hard way about the management of all these animals. Getting the sheep into the trailer to take to the shearer was a hilarious experience with no proper yards and the huge marino ram was rugby tackled by Mike and Terry and loaded into a wheelbarrow after a hectic chase around the paddocks! Catching the lambs to put their rings on was also an energetic experience! The goats got out and stripped the fruit trees while the nanny goat would only allow Mike to milk her so he often could be found milking at midnight after a late night! With the adults working full time it all became a bit much so now they only have dogs and cats while someone else's sheep eat the grass! But Lea says it was all a great experience. Lea decided to move from teaching into politics when the opportunity arose. She sees politics as a challenge and an opportunity to make a difference by speaking out and also bringing groups together for discussion. As the Labor member of Parliament for Elizabeth she has the opportunity to become involved in decision making and being a catalyst for change. At the end of a long day Lea enjoys escaping to the peace and quiet of One Tree Hill and relaxing.

(Thanks Lea for sharing some of your very busy life with us.)

SPORTS ROUND UP

NETBALL - Some of you will be pleased to hear that a few of the One Tree Hill mums have formed a netball team, playing on Wednesdays at the Golden Grove Recreation Centre. The team consists of: Leanne Duffield, Sue Harding, Barbara Broomhead, Leanne Nelson, Cheryl Hart, Dianne Tulip, Jodie Beinke, and Karen McKenzie. Last week they played their second match and were defeated by 3 goals. Score 27-30 (division 1). This deserves congratulations as many of the mums have not played for at least 10 years. Commiserations however go to Cheryl Hart who damaged her ankle during the match and cannot continue to play. The team would like to hear from any interested Mums who may wish to play in future seasons.

EQUESTRIAN CLUB - The programme for the Club is as follows:

10th September...Dressage instruction with Pat Hutchens. Half hour and one hour lessons. Prebook lessons only. Ring Helen Duncan, ph 280 7461.

17th September...North East Riding Clubs Time Trial at Warrondi Stud, 10.00am start. Juniors 17yrs and under, 250 metres per minute. Seniors 18 years and over, 300 metres per minute.

October 1st...Show Jumping Instruction with John Schroeder, Show preparation Sue Schulz, riding and games instruction.

October 15th...Open E.F.A. Hack Show and Encourage ring. Double qualifying E.F.A. rings at Munno Para City Soccer Club grounds. Programmes available at OTH Fodder Store.

TENNIS CLUB - Don't forget the SENIOR OPEN DAY on Sunday 17th September 1.00pm-5.00pm. Contact Secretary Maureen Lane on 280 4 1292. New Senior Players are needed for the coming season which starts in October.

ONE TREE HILL CRICKET CLUB - Cricket practice begins on Sunday 10th September from 10.00am-12.30pm at the One Tree Hill Oval and will be followed by a free Barbecue for old and new members. The Club will be fielding three teams in the Para Districts Cricket Association this season and needs local players to fill these teams. If you are interested in playing cricket please come along to practice or for more information contact Brian Walter on 280 7337.

ONE TREE HILL COUNTRY FIRE SERVICE

The members of the One Tree Hill Country Fire Service are enjoying our quiet winter season catching up on training, maintenance and RAPID plates! We have been continuing to distribute RAPID plates and collect donations (\$5). We are well over half way with distribution and so should be visiting your place soon! Please be careful whilst driving around and put your lights on when it's foggy. BCF (yellow) fire extinguishers become illegal to discharge after 31st December 1995, because of the damage their contents can cause to the ozone layer in the atmosphere. These extinguishers can be handed in at the fire station. We will be handing them on to our headquarters

who will dispose of the contents in an environmentally "friendly" manner. New dry powder extinguishers to effectively replace BFC extinguishers can be purchased from hardware shops for under \$30. Look out for the Canadian "Super Scooper" water plane demonstration. South Australia will have the use of this aeroplane, which carries six tonnes of water, for three days in January 1996. Dawn Leonard, Administrative Officer, One Tree Hill Country Fire Service (taken from Rural Watch Newsletter)

VETERINARY NOTES FOR SEPTEMBER

Since our last Vet notes I know of two dogs who have begun an exercise and slimming programme and I'm sure their owners will benefit too! Dr Irving has provided us this time with the answer to last month's question - what to do if your dog is scared of thunder. Many dogs fear thunderstorms. They know the storm is coming long before we do. Some dogs may try to break into the house to be closer to their owners. Others may break out of the house and in panic take flight which can be dangerous for the dog and heartbreaking for the owner. Don't despair - there is something you can do. Exposing the dog to very gradual increases in loudness of a thunderstorm tape-recording and by giving it rewards for being relaxed when exposed to the noise is known as "systematic desensitization" and "counter-conditioning". You can retrain your dog not to fear thunderstorms. Training starts with quiet playing of the tape and later increasing the volume. Each time the volume is increased and the dog remains calm you should give it a treat. It is rewarded for good behaviour and in this way any bad association with the storm will be lost. So what can be a nasty experience for all concerned can be changed with appropriate training. You can contact me on ABC country radio talkback, 3pm. 30th August. Dr Alan M. Irving, AL-RU farm.

Another question for our vet - where do we get the tape?

MATTHEW HAYDEN'S UPDATE FOR SEPTEMBER

The past month has seen me dealing with a variety of issues, but the most prominent of these issues must surely have been the Trinity Bush Campus proposal. At Council's August 8th meeting the application was refused, after representations were received from both proponents and opponents and discussions between Councillors and staff, and finally led to a vote of 3 for and 7 against. It was an extremely difficult issue and one that my fellow Councillors and I spent a great deal of time considering before casting our votes, but I sincerely hope that the school can find an alternative site within Munno Para in the near future, so that the Bush Campus concept is not lost for ever. The archway over McGilp Rd. should be up during the next month, as the delay revolved around our recent wet weather and the need for the archway to be painted immediately it is erected. OTH Primary School has received Council approval for two transportable classrooms from Dept for Building Management and I understand one is in place already. The recent storms resulted in 40 calls for assistance from 34 locations and I would like to thank the CFS, SES, and Council crews for their efforts. Due to the severity of the storms and the damage which resulted Council will need ratepayers to appreciate our works program is behind schedule and may result in delays to some projects.

PEST OF THE MONTH

How many of you have tried to get rid of your artichoke thistles which featured in last month's Grapevine? Now is the time to do it. I tried the salt method and it really works. It's cheap too. You just need about a tablespoon of salt on the crushed centre of the artichoke. It takes several weeks to kill them. If we all did this we could get rid of them in One Tree Hill. This month we are going to talk about the rabbit which is a pest to some people here. The rabbit was introduced into Australia with the first fleet apparently and because of its great ability to reproduce it has become a pest. Rabbits construct burrows under the ground which helps them survive a wide range of conditions. They also eat a wide range of foods and can graze plants down to ground level, so they are capable of causing a lot of damage. The most effective control is poisoning with "1080". Part of this chemical occurs naturally in some native plants. Native

fauna have a high tolerance to the small amount that will kill rabbits and foxes. Late summer or autumn is the best time to do this. Oats are the ideal bait. Get the rabbits accustomed to the oats by feeding them plain oats. Feed three plain feeds with a three day interval between each feed. Then wait four days and lay the poisoned bait. 50 grams of oats is enough for 12 metres area. Poisoned oats are laid at the rate of 50grams to 18 metres. Warren destruction is the most important part of effective rabbit control and here people in the District can work together. Often a warren will be on a neighbour's property. Thorough ripping is the best way to destroy warrens, burrows and holes. Start a couple of days after poisoning. Begin ripping outside the furthestmost hole and rip a series of parallel lines 40 cm (18") apart right across the warren. Then rip another series of parallel lines at 90 degrees to the first. Remove all possible rabbit shelter. Fumigants can be used where poisoning or ripping are not possible. Please contact the Adelaide Plains Animal and Plant Control Board for any further information on 085 224721. One Tree Hill could get rid of rabbits if we work together. Some of you may have other ideas on how to get rid of rabbits. Let us hear about them.

ANSWERS TO PUZZLE CORNER

1. Sweet William, Marigold, Canterbury Bell. 2. Pink, Rose, Stock.

CHILDRENS CONTRIBUTIONS

Here are three more stories from Mrs Tauba's imaginative class of creative writers.

One day there was a girl. She had a little bird, it was cute. She went to the park. "Mum, I see a cute bird and it can't fly. It was a baby," said Hannah and Dad said we will keep until it can fly. Hannah said "Yipee! Yipee! Dad went outside and got the bird too, it could not fly. It could not say anything. The next day Hannah went to feed the bird. It said "Hello." "Mum, it can say hello". It said it to me and it can fly and I want to let it go." I said good bye. By Jade.

One clear moonlit night in the nursery of the Darling family, a strange, strange boy flew in the nursery window! Nobody saw him except the dog, Nana. Before he could fly out Nana bit the foot of the shadow and woke the children. In came Father and dragged Nana out. One hour later the boy came back to look for his shadow. His fairy friend went first. Can you see that dog? No. Good. Can you see my shadow? No. "Oh dear" In here maybe. "I found my shadow" He tried to stick it on to his feet but it would not stick. He started to cry then he heard a voice. He looked up and saw a girl. Her name was Wendy. She sewed his shadow on. His name was Peter Pan! He took her to Neverland and there they had lots of adventures. By Alexandra.

A long time ago a truck and a bulldozer were making a road and it was a dirt road and it was noisy. No one was allowed to go on it. By Matthew.

SIMON'S PET CORNER

Sean attends One Tree Hill Primary School in Grade One. He would like to tell everyone that he has 2 fishes, 1 dog, 2 rabbits and a guinea pig in his family. His favourite pet is Roger Rabbit but he doesn't like him scratching when he tries to hold him. Peter Rabbit also scratches. Sean says you have to be very careful not to overfeed your fish. Also it's very important not to throw your guinea pig because it kills them (that seems to be very good advice, Sean. I hope no children will throw any animal around). This month Simon wants to tell everyone about his stumpy tailed lizards. They are baby lizards that were given to him by one of his friends. He has called them Bubbles and Squeak! At the moment they are living in a fish tank but when they get bigger they will have to move to more spacious accommodation. On the floor of his fish tank he has put bark, leaves and pine needles. His lizards are eating snails, bananas, bugs and worms and they also enjoy eggs. Simon has them in his bedroom which is nice and warm for them. He says they are very quiet and don't hiss. Simon thinks they are ideal pets as they don't cost much to feed, don't shed fur, and are especially good for people who have asthma. Let's hear from you about your special pet. Write to the Grapevine and leave it at the deli in an envelope marked "Grapevine". We look forward to hearing from you.

LOCAL HISTORY NOTES

How many know who founded the Uleybury School on Cornishman's Hill Road? Moses Bendle Garlick who opened up the area and named it Uleybury after his home in Gloucestershire, England, and Uley Chapel's first Minister, Pastor J.P. Buttfield were both responsible for getting funds from the government of the day. Pastor Buttfield was known as the "Cricket Playing Parson". Apparently a group of frock coated Uleybury men marched indignantly into the Baptist Headquarters in Adelaide to complain he was playing too much cricket! The government offered Moses Garlick and Pastor Buttfield 150 pounds for the new school provided residents equalled this amount. Pastor Buttfield donated the land and the building went ahead in spite of protests from One Tree Hill residents that the school was too close to the existing Precolumb School. It was completed in 1856 at a cost of 400 pounds. Teachers and their families lived in the premises at the rear of the school room. Mr Mattingly was the first schoolmaster. Pastor Buttfield also taught at the school until 1862. In 1887 the Headmistress was Marion C. Kekwick, widow of Mr W. Kekwick, second in command of John McDouall Stuart's celebrated expedition from Adelaide to Darwin. In 1943 the school became known as the One Tree Hill Rural School. It was the oldest school building still being used by the Education Department when it finally closed in 1971. In 1978 the Uleybury School opened as a museum. Mr Hedley Lang, a former teacher at the school, unveiled the commemorative plaque as well as donating a number of items including his old desk. His original lessons and tests are chalked up on the blackboard. You can take a step back in history by visiting any Sunday between 2.00pm and 4.00pm. (information for this article was taken from the One Tree Hill Sketchbook by Steven Hill obtainable at the museum or at the Craft Shop)

MESSAGE FROM OUR MAYOR - MARTIN LINSELL

Hello, As the new Mayor of our City, it is with great pleasure and pride that I have this opportunity to write to you. It is indeed an honour to be elected to this important office. But firstly, on behalf of all in the City of Munno Para, I would like to express our gratitude to the warm, caring and first lady of our City, past Mayor Jo Gapper. You have left the City of Munno Para in a much better condition than when you became the first elected Mayor a decade ago. For your tenacity and dedication we salute you and thank you for a job well done. On behalf of the Council and Staff, I would like to congratulate

every one involved in the Virginia Expo held on May 18-20th this year. Overall the Expo was an outstanding success and showed the many overseas, interstate and local visitors what people working together can achieve. Our City has a lot to offer you. It has a diversity and blend of urban and rural environments and its population has a strong community base with a multicultural mix of people. I have been in the Mayor's position for four months now and am very much enjoying the challenge of the task.

Martin Lindsell (Next months Grapevine will have much more detail about Munno Para and the tasks and issues that Martin sees ahead for the community)

RURAL WATCH

During the last financial year the crime rate in One Tree Hill has increased dramatically. For the 94/95 financial year the following number of incidents were reported: Shedbreak...19 Property damage...7 Stolen Vehicles...5 House/shop break...12 Larceny.....9 Recovered stolen vehicles.....6 Total...58 This total compares with the entire total of 23 incidents for the 93/94 financial year.

As you can see we have had an increase of well over 50% in criminal activity in our area. Please take simple measures such as locking your sheds and writing down registration numbers of vehicles you may think out of place in the area. This involvement can help to reduce the criminal activity. Incidents which have occurred in OTH Rural Watch area between 1/6/95 and 16/7/95: Housebreak and larceny: 10/6/95 Rose Avenue. Entry via smashing rear window. Jewellery and computer stolen \$6200.00. 14/6/95 Tyeka Driv. Entry via open rear window. Electrical, jewellery 9700.00 23/6/95 Blacktop Road. Suspects being interviewed electrical \$2900.00. Shedbreak and larceny: 17/6/95 - 9/7/95 Precolumb Road. Entry via jemmying door. Motorbike \$2700.00 23/6/95 Burnett Drive. Entry via unlocked door. Grass Trimmer, tools. \$580.00. Hotelbreak with intent. 17/6/95 Blacktop Road. Entry via jemmying window/alarm activated.

The last six weeks have again proven that there are active breakers in the area. Please contact the police for anything or anyone you may think is out of the ordinary and doesn't belong in the area.

ANNUAL GENERAL MEETING

The AGM on 19/6/95 was well attended and the following members were re-elected:

Area Co-Ordinator.....	Neil Smith Ph 280 7731.
Deputy Area Co-Ordinator.....	Lance Walter Ph 280 7259.
Police Co-Ordinator.....	Darren McCue. Ph 263 0666.
Secretary.....	Brian Hatcher. Ph 280 7135
Treasurer.....	Roger Zeuner Ph 280 7657
Newsletter.....	Bill Sims Ph. 280 7138.

Community interest and input is always appreciated.

BIRD NEWS

Have you heard of "Hot Foot" glue? It's a silicon glue which never dries out. It is applied to ledges and building facades to discourage birds, mainly pigeons and starlings from roosting. Theoretically the bird simply lands on the glue, finds it sticky and unpleasant and so flies off. Unfortunately it does not always work that way. If a bird with short legs like a welcome swallow lands on it the feathers can get stuck up, either to each other or to the building preventing the bird flying away and thus it dies a cruel death. If the bird can escape, when they preen the glue off their feathers they swallow the glue which can cause gut obstructions. Some of the names this product

are sold under include Bird Off, Bird Repel, and Hot Foot. They are less sticky if they are dusted with talc but talc easily washes off when it rains. Currently the Bird Care and Conservation Society are trying to get this product banned because they have had so many birds brought to them suffering as a result of this product. The latest was an owl which had to be euthanased. Most people who use it do not intend to be cruel and are horrified when they see the suffering caused.

LETTERS TO THE EDITOR

Dear Editor, may I through the Grapevine Newsletter on behalf of Ambulance Team Elizabeth, request your readers, when calling for an ambulance, (or Police, S.E.S. and of course the C.F.S) please use the R.A.P.I.D. number which is on the tag by their telephone. I appreciate that some householders in the One Tree Hill area have not received their R.A.P.I.D. numbers as yet, however I am advised this is being addressed. While on this subject may I personally thank Brenton Barrit from the local C.F.S. who did the computer work for the project. If any organisations require an Ambulance for a display or any other reason, do not hesitate to contact Terry Whales on 287 2340 phone or fax.

Many thanks, Tony Lacy, Ambulance Service South Australia,
Ambulance Team Elizabeth, Elizabeth Way, Elizabeth.

JOKE OF THE MONTH

A girl confided to her friend, "The strangest thing has been happening to me. Every time I sneeze, I'm overtaken by an unbelievable sensation of wild passion."

"That's amazing," her friend said. "What do you take for it?"
The girl smiled. "Lots of black pepper."
