

GRAPEVINE

VOL. 16 NO. 8

SEPTEMBER 1993

THIS MONTHLY NEWSPAPER IS PUBLISHED BY THE ONE TREE HILL PROGRESS ASSOCIATION FOR USE BY YOU OR YOUR ORGANISATION. DEADLINE for the next issue is FRIDAY, 24TH SEPTEMBER 1993 and details may be left either at the One Tree Hill General Store or 'phoned to GLENICE LEONARD on 280 7383. IT WOULD BE APPRECIATED IF ITEMS FOR PUBLICATION COULD BE HANDED IN WELL AHEAD OF THE DEADLINE DATE. THANK YOU

The purpose of this Grapevine is to share local news, views and events. We want to encourage local people and groups to share what they are doing and to pass on items of interest to one another. We are happy to include some advertising from local businesses in which case the maximum size for a single advertisement is one third of a page. Please include a donation to cover the cost of such advertisements - about \$10 for this size.

No charge for personal or community notices.

DONATIONS

It costs approximately 30c. per copy of the Grapevine - while we are not putting a price on it, donations to cover the cost would ensure its survival!!

ONE TREE HILL PRIMARY SCHOOL STAFF
AND STUDENTS SAY

"THANK YOU"

To all the wonderful people who collected Coles dockets for us. The final tally is not available yet but the support has been so overwhelming that we have collected enough to qualify for a computer! We may have enough for some added software also.

This would not have been possible without the backing of our community.

Thank you again.

Barbara Anderson (on behalf of all at the School)

RAPID

The Rural Areas Property Identification Directory (RAPID) System is being implemented in the One Tree Hill rural area. A local committee, with the task of establishing the RAPID System, has been formed. The committee has representatives from the Police, CFS, SES, St. Johns, Munno Para Council, ETSA, Rural Watch and OTH Progress.

The RAPID System is a simple universal method for identifying and locating rural properties. Each property/dwelling is identified by a name and a six digit RAPID number. The name is the map name of the appropriate map taken from the Australian 1:50,000 topographical map series. Our scheme is restricted to the Gawler, Barossa, Adelaide or Onkaparinga maps. The RAPID number is the map or grid reference for the dwelling which is read from the named map by reference to the local topographical features. A six digit grid reference, and its associated map name, is only sufficient to specify the geographical location of a dwelling to the nearest 100 meters. Because of the need to disambiguate neighbouring properties/dwellings, the system will only function in regions where property areas are significantly greater than one hectare.

For quick response, and to simplify the location of properties, each property will be supplied with a reflective sign with their grid reference, similar to a vehicle number plate, which should be prominently displayed near the property entrance. To assist property occupiers, a key-tag with the property's RAPID number will also be supplied. This key-tag should be attached to the telephone handset normally used in emergencies.

Properties can be located by either reading and interpreting the appropriate topographical map, or by reading and interpreting the grid references on the reflective signs.

The system will be used by the emergency services to locate properties in times of emergencies, but it can also be used by anyone as a means of locating properties. Instead of having to furnish tradespersons, friends and relatives with elaborate directions to your own property, you will only need to provide the street name and your RAPID number. (In theory, the street name is not necessary, but it does provide some redundancy for human errors.)

The One Tree Hill scheme will be self-funding, but will seek donations from local government and community organisations. Each property involved in the scheme will be approached by CFS and RW volunteers who will explain the system, collect information for the directory and seek a tax deductible donation for the scheme.

For further information or offers of assistance, please contact Dean Kossatz (280 7220), Vince Cozzitorto (280 7206) or David Parker (280 7137).
